Statement from ISA

UPDATE: Specifications on Use of the ISC Rope Wrench RP280 in ISA Tree Climbing Competitions

Following the submission of the requested documentation by the manufacturer as required by ITCC Rules, the ISC Rope Wrench RP280 will now be accepted in ISA Tree Climbing Competitions in all configurations indicated in the User Manual. ISC Rope Wrench users will no longer be restricted by a specific climbing rope brand or friction hitch used, but shall abide by the equipment requirements indicated in the [User Manual](#) for appropriate substitutes. Individuals using the ISC Rope Wrench RP280 must review and follow all guidelines for proper use as outlined in the [User Manual](#).
